Re: Bolivina Perca Sand, Reservoir A
Camerina Zone, Reservoir F
Lake Arthur Field
Jefferson Davis Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **DAVIS PETROLEUM CORP.** for the calling of public hearings, after legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters relating to the Bolivina Perca Sand, Reservoir A, and the Camerina Zone, Reservoir F, all in the Lake Arthur Field, Jefferson Davis Parish, Louisiana:

1. To establish rules and regulations and to create drilling and production units for the exploration for and production of gas and condensate from the Bolivina Perca Sand, Reservoir A, and the Camerina Zone, Reservoir F, all in the Lake Arthur Field, Jefferson Davis Parish, Louisiana, such units to be designated BOL P RA SUA and CAM RF SUA.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units, with each tract sharing in unit production on a surface acreage basis of participation.
3. To provide that any future wells drilled to each of the aforementioned intervals and reservoirs should be located in accordance with the spacing provisions of Statewide Order No. 29-E.
4. To provide that the Commissioner of Conservation should be authorized to reclassify the aforementioned intervals and reservoirs by supplemental order without the necessity of a

public hearing if the producing characteristics of the particular reservoir changes and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.

5. To consider such other matters as may be pertinent.

The Bolivina Perca Sand, Reservoir A, in the Lake Arthur Field, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 10,770 feet and 10,828 feet (electrical log measurements) in the Hugh A. Hawthorne & Chevron Oil Co. – Ira Bertrand No. 2 Well, located in Section 3, Township 11 South, Range 4 West, Jefferson Davis Parish, Louisiana.

The Camerina Zone, Reservoir F, in the Lake Arthur Field, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 12,330 feet and 13,170 feet (electrical log measurements) in the Hugh A. Hawthorne – Sidney Kibodeaux, et al No. 2 Well, located in Section 2, Township 11 South, Range 4 West, Jefferson Davis Parish, Louisiana.

Pertinent data, including well logs, may be obtained **AT THE COST OF THE REQUESTING PARTY** from Leon Comeaux & Associates, 305 La Rue France, Lafayette, Louisiana 70503, Telephone No. 337/233-9839.

Pursuant to the Revised Rules of Procedure, a pre-application conference was held in Lafayette, Louisiana on October 23, 2003, at which the parties named on the attached list were in attendance. The conference was opened by Rick Revels and David Comeaux who explained the bases for the applicant's proposals. Questions were asked and answered. Mr. David Sturlese, representing the Bertrand Family, then presented somewhat different unit proposals. Resolution of differences could not be achieved at the conference, which was then adjourned. As the result of additional negotiations after the conference, the applicant and representatives of three landowners have resolved differences and support the compromise unit proposals reflected on the attached plats. We are not aware of any remaining opposition. Should any interested parties have questions regarding the revised proposals or wish to consult, the undersigned should be notified.

Attached hereto and made a part hereof are revised plats outlining each of the proposed units, the conference attendance list and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.
